WEATHER FORECASTS FROM WARSAW, KRAKOW, AND POZNAN NEWSPAPERS,
13 JANUARY - 10 FEBRUARY 1952

I. KRAKOW NEWSPAPER

The following forecasts are from the Krakow newspaper Dziennik Polski.
 All temperatures are centigrade. Forecasts are for southern Poland.

15 January

Variable cloudiness with occasional rain and snow in the uplands and snow
 in the mountains. Temperature during the day around zero. Temperature high in
 the mountains, from -12 to -5 degrees. Light and moderate northwesterly winds.
 Strong northwesterly winds in the mountains with sudden gusts.

16 January

Haze in the morning. Cloudy with occasional rain. Highest temperature in
 the uplands during the day, 5 degrees; during the night around zero. Light and
 moderate westerly winds.

17 January

Considerable cloudiness during the morning. Cloudy with possible light
 rain. Possibly clearing during the day. Cooler. Highest temperature in the up-
 lands during the day, -7 degrees; during the night, around zero. Temperature
 in the mountains, from -3 to -7 degrees. Moderate and strong westerly winds
 changing to southwesterly.

18 January

Cloudy with some snow in the morning. Some clearing about noon. Temperature during the day, about 2 degrees; during the night, -5 degrees. Temperature range in the mountains from -5 to -11 degrees. Moderate westerly and northwesterly winds.

Report on Skiing Conditions: Snow depth in centimeters: Szklarska Poreba, 45; Karpacz, 12; Sniezka, 81; Bielsko and Wisla, snow in spots; Barania Gora, 65; Klimczok, 47; Skrzyczne, 67; Babia Gora shelter, 45; Nowy Targ, 14; Gubalowka, 35; Bukowina, 28; Koscielisko Kiry, 32; Ornak, 42; Kalatowki, 42; Dolina Pieciu Stawow Polskich, 145; Kasprowy Wierch, 132; Hala Gasienicowa, 91; Lysa Polana, 38; Morskie Oko, 94; Obidowa, 20; Rabka and Limanowa, snow in spots; Turbacz, 55; Krynica, 34; Wysowa, 22; Iwonicz, snow in spots.

Skiing in the mountains is not good. The snow is deeper above 1,000 meters, but for the most part it is frozen granular surface.

19 January

Cloudy and foggy in the morning. Rain and snow in the uplands and snow in the mountains. Clear during the day, especially in the uplands. Temperature during the day, around zero. Temperature range high in the mountains, from -3 to -8 degrees. Light and moderate easterly winds.

20 January

Considerable cloudiness with snow and sleet. Temperature range in the uplands during the day from zero to 3 degrees; during the night, from zero to -3 degrees. Temperature range high in the mountains from -5 to -10 degrees. Variable northeasterly winds, changing to prevailing light northeasterly winds.

22 January

Cloudy and foggy with rain or drizzle in the uplands and snow in the mountains. Some clear weather during the day with a falling temperature from the north. Temperature range in the uplands during the day from zero to 4 degrees; during the night, light frost. Prevailing light and moderate northeasterly winds.

23 January

Considerable cloudiness, gradually clearing. Some light snow locally. Temperature range in the uplands during the day from -1 to -4 degrees; during the night, from -4 to -8 degrees. Temperature range high in the mountains from about -8 degrees to -15 degrees. Light and moderate northeasterly and easterly winds.

24 January

Haze in the morning. Temperature range during the day, from -4 to -10 degrees. Temperature high in the mountains, about -10 degrees. Light southeasterly winds, with moderate southeasterly winds high in the mountains.

STAT

RESTRICTED

25 January

Cloudy with possible light snow, especially in the mountains. Temperature range from about zero during the day to -3 degrees during the night. Temperature high in the mountains, -8 degrees. Light or moderate southeasterly and southerly winds.

Report on Skiing Conditions: Snow depth in centimeters: Karpacz, 33; Sniezka, 106; Kudowa, 14; Wisla, 40; Koniakow, 73; Barania Gora, 92; Szczyrk, 38; Skrzyczne, 83; Pilsko, 82; Zawoja, 35; Babia Gora summit, 110; Porabka, 24; Myslenice, 26; Lubon Wielki, 57; Jablonka, 37; Gubalowka, 73; Koscielisko Kiry, 76; Hala Ornak, 132; Dolina Chocholowska, 127; Hala Gasienicowa, 170; Zakopane, 65; Kalatowki, 110; Hala Kondratowa, 125; Dolina Piecu Stawow, 215; Kasprowy Wierch, 183; Morskie Oko, 142; Obidowa, 48; Rabka, 41; Turbacz, 122; Jaworzyna Krynicka, 118; Wysowa, 52; Iwonicz, 22; Barwinek, 33.

Skiing in the mountains is very good. The ridges and the summits of the Sudeten and Carpathian mountains are covered with broken granular and frozen granular snow. The lower level of the mountains is covered with powder snow. The dwarf mountain pine trees, stones, and larger roots are covered by snow. Possibility of avalanches in the Tatry Wysokie.

26 January

Considerable cloudiness and fog. Some intermittent snow or sleet during the day. Warmer. Temperature range in the uplands during the day, from -3 to 2 degrees; high in the mountains, about -10 degrees. Prevailing light southeasterly winds in the uplands, with moderate and strong winds in the mountains.

27 January

Some fog and haze, with intermittent snow or sleet in the east and some clearing in the west. Temperature range during the day, from -3 degrees in the west to 3 degrees in the east; during the night from zero to -5 degrees. Temperature range high in the mountains from about -5 degrees to -10 degrees. Light winds, westerly and northwesterly in the west, and southerly and southeasterly in the east.

29 January

Variable cloudiness with intermittent snow. Highest temperature in the uplands during the day, about -3 degrees; during the night, -6 degrees. Temperature range high in the mountains, from -10 degrees to -15 degrees. Moderate northwesterly winds, gradually diminishing.

30 January

Cloudy with possible light snow in the morning. Clearing locally during the day. Haze during the morning hours around the cities and valleys. Warmer. Temperature range in the uplands during the day from zero to -5 degrees. Prevailing light and moderate westerly winds.

RESTRICTED

STAT

RESTRICTED

31 January

Variable cloudiness with some possible intermittent snow. Temperature range in the uplands during the day, from 2 to -2 degrees; during the night, from -4 to -6 degrees. Temperature range high in the mountains from about -7 degrees to -12 degrees. Light and moderate southwesterly winds, with strong winds on the summits.

1 February

Cloudy in the morning with snow, later changing to snow and rain. Warmer. Highest temperature during the day about 6 degrees. Temperature range high in the mountains from -6 to -12 degrees. Moderate southerly winds with sudden gusts. Strong winds in the mountains.

Report on Skiing Conditions: Snow depth in centimeters: Jelenia Gora, 18; Karpacz, 27; Sniezka, 106; Klodzko, 19; Duszniki-Zkroj, 22; Kudowa, 13; Snieznik Klodzki, 115; Cieszyn, 27; Bielsko, 40; Wisla, 43; Koniakow, 57; Stecowka, 93; Barania Gora, 135; Klimczok, 95; Szczyrk, 42; Skrzyczne, 110; Zywiec, 22; Zwardon, 53; Wielka Raczka, 142; Lipowska, 125; Pilsko, 138; Sucha, 25; Makow, 27; Zawoja, 35; Babia Gora, 75; Babia Gora summit, 132; Porabka, 25; Leskowice, 82; Kalwaria, 23; Mysienice, 28; Limanowa, 32; Lubon Wielki, 75; Nowy Targ, 46; Jablonka, 31; Witow, 45; Gubalowka, 72; Bukowina, 53; Antalowka, 63; Koscielisko Kiry, 70; Hala Ornak, 115; Dolina Chocholowska, 105; Hala Gasienicowa, 57; Zakopane, 54; Kuznice, 82; Kalatowki, 47; Hala Kondratowa, 65; Dolina Pieciu Stawow Polskich, 172; Kasprovy Wierch, 159; Glodowka, 68; Lysa Polana, 62; Roztoka, 72; Morskie Oko, 139; Obidowa, 50; Rabka, 39; Turbacz, 137; Krosienko, 32; Szczawnica, 45; Prehyba, 127; Piwniczna, 32; Krynica, 48; Jaworzyna Krynicka, 112; Wysowa, 35; Iwonicz, 18; Barwinek, 30; Krakow, 19.

Skiing in the mountains is very good. For the most part, loose granular snow is to be found on the ridges and in the open mountain hollows. Heavy snowdrifts in spots. Skiing conditions are good on the skiing runs in the Tatry Mountains.

2 February

Generally considerable cloudiness with rain or rain and snow. Highest temperature in the uplands during the day, 5 degrees; during the night, -7 degrees. Light southwesterly winds, changing to northwesterly. Moderate southwesterly winds in the mountains.

3 February

Generally cloudy and foggy with intermittent snow. Rain in the valleys. Possibly clearing during the later hours especially in the west. Temperature range during the day, from -2 degrees to 1 degree; in the mountains from -8 to -15 degrees. Prevailing light and moderate westerly winds.

5 February

Considerable cloudiness with snow in the morning. Gradually clearing during the day in the northwest. Highest temperature during the day, about zero; locally, -3 degrees. Temperature range high in the mountains from about -10 degrees to -16 degrees. In the morning, light westerly and northwesterly winds; during the day, changing to moderate northerly and northwesterly winds.

- 4 -

6 February

Cloudy with passing snow in the east and in the mountains. Gradually clearing during the day in the west. Temperature range during the day from zero to -3 degrees. Temperature range high in the mountains, from -8 to -14 degrees. Moderate northerly winds with sudden gusts. Strong north-easterly winds in the mountains.

Warning: Heavy snowdrifts cover the roads and railroad lines in southern Poland. Heavy layers of snow which are difficult to remove cover the ski paths. Danger of avalanches exist in the Tatry Mountains.

Snow depth in centimeters: Cieszyn, 37; Wisla, 104; Kubalonka, 80; Koniakow, 80; Zwardon, 65; Pilsko, 160; Babia Gora, 90; Rabka, 83; Nowy Targ, 97; Obidowa, 100; Zakopane, 98; Hala Gasienicowa, 153; Kasprowy Wierch, 255; Szczawnica, 80; Krynica, 66

7 February

Cloudy. In the morning, snow and snow with rain. Partly clearing during the day and night. Highest temperature during the day, 4 degrees; during the night, about -6 degrees. Light northwesterly winds.

Warning to skiers: Skiing conditions are very bad. The recent snowfall amounts to 30 centimeters. General snow depth in centimeters: Kasprowy Wierch, 290; Hala Gasienicowa, 191; Babia Gora, 120; Szczawnica, 86; Rabka, 90; Makow Podhalanski, 76. Danger of avalanches on all the paths in the Tatry Mountains.

8 February

Considerable cloudiness and fog with possible snow, later rain or drizzle. Temperature range in the uplands during the day from -2 degrees to 3 degrees. Temperature range high in the mountains from -8 to -12 degrees. Moderate and strong southwesterly and westerly winds, changing during the day to northwesterly.

Report on Skiing Conditions: Snow depth in centimeters: Karpacz, 34; Sniezka, 123; Wroclaw, 8; Wisla, 93; Barania Gora, 179; Zywiec, 50; Zwardon, 86; Pilsko, 168; Babia Gora summit, 198; Porabka, 45; Myslenice, 68; Gubalowka, 180; Zakopane, 120; Kalatowki, 98; Kasprowy Wierch, 274; Hala Gasienicowa, 199; Morskie Oko, 190; Rabka, 90; Turbacz, 173; Szczawnica 80; Krynica, 76; Iwonicz, 56.

Skiing conditions in the mountains are very bad. Recent snow falls amount to 30-80 centimeters. The snow is extremely loose in places, especially on the ridges. Danger of avalanches exists in the Tatry Mountains.

9 February

Cloudy with passing snow. Temperature range during the day from zero to -3 degrees; during the night, from -2 to -5 degrees. Moderate westerly and northwesterly winds.

Snow depth in centimeters: Kasprowy Wierch, 259; Czokopane, 84; Rabka, 85; Babia Gora, 175; Jablonka, 45; Szczawnica, 72; Krynica, 72; Wisla, 90; Cieszyn, 33; Obidowa, 95.
